

GE's Inspection Technologies Awarded US Air Force VideoProbe™ Contract for Propulsion Sustainment

GE's Inspection Technologies was recently awarded a 5-year contract by the US Air Force AFLCMC/WNKAB for video borescope kits. All VideoProbe kits are manufactured in the USA.

Contract FA8533-17-D-0006 is a multi-year contract to supply video borescopes to the US Air Force global propulsion sustainment operations.

This contract is the 2nd consecutive, multi-year contract awarded to GE by the US Air Force, and follows US Navy's NAVAIR Common Video Borescope System - CVBS multi-year contract. The US Army is also deploying these same VideoProbe kits.

This USAF contract will deliver three different VideoProbe kits to simplify the maintainers' learning and deployment process, help increase flight safety and available flight hours, while reducing the number of video borescope types in the USAF inventory system.

The three (3) VideoProbe kits for the USAF are outlined on the reverse of this document. For more information, contact GE's Inspection Technologies Remote Visual Inspection headquarters at the following:

Type 1	NSN	Equivalent GEIT Part Number
6.2mm VideoProbe with Measuring Capabilities	6650-01-664-8138	XLGOC6232-T1
Kit includes: XL Go+ VideoProbe (6.2mm Ø x 3.2m Length) Two (2)-Hour XL Go Battery & AC Charger Forward View, Far Focus, Head Guard Optical Tip Adapter Forward View, Far Focus, Yellow Optical Tip Adapter Forward View, Near Focus, Black Optical Tip Adapter Side View, Near Focus, Blue Optical Tip Adapter Forward View, 3D Stereo Measurement, Black Optical Tip Adapter Side View, 3D Stereo Measurement, Blue Optical Tip Adapter Measurement Verification Block Tip Case		Certification of Calibration 6.2mm 16.75" Rigidizer with Gripper Shipping Container Technical Manual Inspection Manager - Image Management and Remeasurement Tool on CD Gripper, FOD Retrieval Working Tool Magnet, FOD Retrieval Working Tool Hook/Comparator, Specialty Working Tool Working Tool Manual XL Go+ SW Suite on micro SD card Snare FOD Retrieval Working Tool
Type 2	NSN	Equivalent GEIT Part Number
6.1mm VideoProbe with Measuring Capabilities	6650-01-664-0145	XLVUD6130-T2
Kit includes: XL Vu VideoProbe (6.1mm Ø x 3m Length) Two (2)-Hour XL Go Battery & AC Charger Forward View, Far Focus, Head Guard Optical Tip Adapter Forward View, Far Focus, Yellow Optical Tip Adapter Forward View, Near Focus, Black Optical Tip Adapter Side View, Near Focus, Blue Optical Tip Adapter Forward View, 3D Stereo Measurement, Black Optical Tip Adapter Side View, 3D Stereo Measurement, Blue Optical Tip Adapter Measurement Verification Block Tip Case		Certification of Calibration 6.1mm 16.75" Rigidizer with Gripper Shipping Container Technical Manual Inspection Manager - Image Management and Remeasurement Tool on CD XL Vu D SW Suite on micro SD card
Type 5	NSN	Equivalent GEIT Part Number
4mm VideoProbe with Measuring Capabilities	6650-01-664-8139	XLVUD4030-T5
Kit includes: XL Vu VideoProbe (4.0mm Ø x 3m Length) Two (2)-Hour XL Vu Battery & AC Charger Forward View, Far Focus, Head Guard Optical Tip Adapter Forward View, Near Focus, Black Optical Tip Adapter Side View, Near Focus, Red Optical Tip Adapter Forward View, 3D Stereo Measurement, Black Optical Tip Adapter Side View, 3D Stereo Measurement, Blue Optical Tip Adapter Measurement Verification Block Certification of Calibration Tip Case		4.0mm 17" Rigidizer with Gripper Shipping Container Technical Manual Inspection Manager - Image Management and Remeasurement Tool on CD XL Vu D SW Suite on micro SD card
